Thanks, Mary. We have a request in to move it given your schedule but got pushback given Dave's. In any event let's make sure to touch base Monday.

Thanks again,
John

Thanks for sending. To date, my understanding is that there has been fairly broad consensus within the state on assumption. The current bill had support in House from both sides – only a single environmental group did not actively support it (Sierra Club because they were unsure of resource - \$-implications).

I hope we can reschedule Tuesday briefing to another time because I think I need to be there – not sure what David Ross' calendar is like – but I also can't miss first Business Review.

Mary

**Subject: CLARIFICATION: NWF DOES NOT SUPPORT EPA's EXPEDITED FL STATE
ASSUMPTION PROCESS**

Assumable Waters Subcommittee – I know our task is done, but I need to be crystal clear with all of you and particularly EPA and Corps staff and officials that NWF strongly opposes EPA's campaign to expedite 404 State Assumption in Florida and elsewhere.

I am very disturbed to learn that my very narrow support for the very limited recommendations we made with regard to assumable waters may now be being misrepresented as support of state assumption.

In fact, our limited findings were predicated upon a set of assumptions that included strong legal and policy safeguards that ensured that only legally strong, effective, well-resourced state programs would be approved, and would be approved through a transparent process subject to meaningful public input. We are strongly opposed to the process as it seems to be moving in Florida and will be opposed to any similar expedited process that may proceed in other states.

For what its worth,

Jan
